

OWL 4 Series Fibre Optic Certification Test Kits Application

The OWL 4 Series of optical fibre certification test kits are ideal for the fibre optic professional who requires standards-based certification of optic fibre links, including TIA-568, ISO 11801, various Ethernet standards plus others. The tester can also be configured with custom standards to meet the needs of various differing applications. The test kit includes Power Meter and Light Source depending upon needs. Accessories include carrying case, protective rubber boots, NIST traceable certificate of calibration and CD-ROM with reporting software.

Key Features

- Certifies optic links to known standards including:
ISO/IEC11801, - equivalent to AS3080
- Auto test - tests at 2 wavelengths
- Data Storage - up to 1000 data points
- Reporting Software gives formatted printed reports
- Loss Wizard to calculate maximum allowable losses
- Absolute or relative modes to give instant pass/fail results
- Selectively view, delete or resample data points
