

Fibre Optic Pigtails

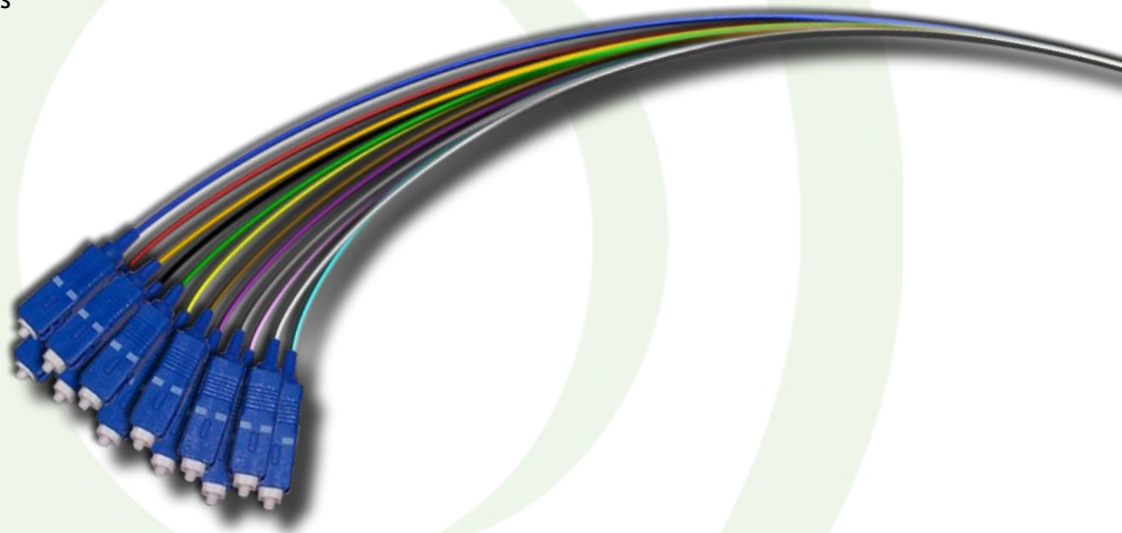

Designed specifically for fusion splicing to most fibre types and commonly used for termination purposes of Loose Tube Cables the Optimal pigtail range is the optimal choice when quality and reliability are of the utmost importance.

Using only the highest quality OFS fibre Optimal manufactures a broad range of Optical Fibre Pigtails meeting the needs of the communications industry. All assemblies are fully tested prior to delivery to ensure customer satisfaction.

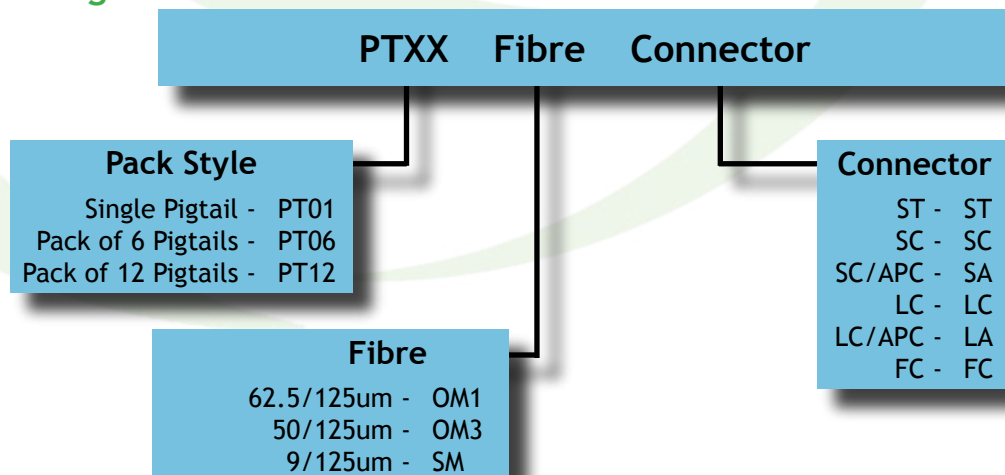

Most pigtails types are available as single pigtails.

Alternatively pigtails can be supplied in packs of 6 or 12 pigtails colour coded to IEC specifications allowing for easy installation and easy identification of each individual fibre. These are commonly known as rainbow packs

Most common connector types are stocked with a 2 metre length as standard allowing for fast delivery times. For non stocked items Optimal has the facilities to manufacture most customer requests with quick lead times
