

Optical Fibre Dome Splice Closure

The OPT-CD01S is a small sized dome design fibre optic splice closure using a circular hoop/clip to fix and seal the closure cover and base.

The OPT-CD01-S provides 3 small and 1 large entry/exit ports. Sealing is achieved with heatshrinks designed to securely hold the fibre optic cable. An integrated elastic seal fitting is installed between the housing and the hoop and nut.

Key Features

- Suitable for straight-through and branching applications
- Easy to re-enter, no re-entry tool kit required
- A central storage shelf is provided for reserved fibres
- Supplied with all accessories including splice protectors, heatshrinks etc.
